## About the Parks...

The City of Allentown has more than 2000 acres ranging from active parks, lakes, rivers, rose gardens, passive parks, picnic areas, fishing streams and so much more. Founded in 1908 with the dedication of West Park, the system continued to grow and develop based on the vision of General Harry C. Trexler, one of Allentown's leading citizens. General Trexler was the father of Allentown's Park system, and through the Trexler Trust, continues to fund growth, maintenance, and development of this world-class park system. Allentown's citizens and visitors are enriched by his legacy today and for generations to come. We invite you to explore and enjoy Allentown Pennsylvania's Park Place.
